THIS IS UNEVALUATED INFORMATION

25X1

In the town area of Min [redacted] (50' N), White Russian SSR, on a slope of [redacted] about 500 meters from the new stadium.

25X1

the plant covers about 1,000x800 meters. [redacted]
The plant had existed for some time. [redacted] in Febru-
ary 1946, the large machine shop was still under construction
and the adjacent building was not yet roofed. A lather shop,
a fitting shop for automobiles and an additional garage were
constructed during 1947. The construction of large new foundry
is planned. The construction site was surveyed but construction
had not started.

Comment:

25X1

a. This report is an essential supplement to previous information on the Kirov Plant (the dimensions of the plant area). (Other data contained in previous reports are confirmed.

b. The plant location can be pinpointed by the attached sketch in connection with the town sketch [redacted] [redacted] The plant was entered on that sketch (No 47) and designated "Plant, purpose unknown". The stadium, 500 meters from the plant, is also entered on that sketch. In the present report the exact plant location is determined as follows: 1,500 meters northeast of the main station, in the northern section of a wide southeastern slope of the Gvisloch River. [redacted]

25X1

25X1

25X1

[redacted] the plant area and the vicinity have been destroyed.

c. Variances between attached sketch and a generally corresponding sketch [redacted] can be explained by the fact that the two periods of observations are one year apart.
